Sugisaki Meter Co., Ltd.

## Notice of resumption of sales of torque tester DI-1M-IP500

We would like to express our gratitude for the continued success of your company. Thank you very much for your continued support.

Now, the sale of the "Torque Tester DI-1M-IP500" has been suspended for a long time, but verification has recently been completed and it is being resold. We apologize for any inconvenience caused during the suspension.

The product specifications are unchanged from the product before suspension. We will deliver it with similar specifications. Regarding prices, we have revised them in accordance with the price revision for all products in January 2023 and due to changes in the design of the detection unit. Prices differ from past prices, so please contact our sales representative for details.

## Resumed production product      Torque tester DI-1M-IP500
