

CEDAR is ending sales of the DI-9M Series

Due to a number of factors, we will stop receiving orders for the DI-9M series on December 31, 2026. Discontinued models are listed below. We request your understanding.

Discontinued models:

- All types in the DI-9M-08
- All types in the DI-9M-8

As successors to the DI-9M series, we recommend our latest models, which offer expanded functionality.

Successor models:

- WDI-100HR-OW Series
 - WDI-10HR-OW Series
- For further details on the new product (Torque Tester WDI Series), including its features, specifications, and ordering information, please refer to our website.

We believe these models will provide even greater value and reliability for your future projects.

We look forward to your continued support.
